Led by Tara Collins, The Steering Committee meets monthly via zoom, and the project manager create an agenda including relevant topics. During these sessions, the committee engages in critical discussions on big decisions and steps necessary to uphold the ICCRP's commitment to safe, inclusive, and impactful research practices. This collaborative effort ensures the effective management of research initiatives, staff engagement, participant involvement, and the development of meaningful research outputs.

## What are we doing and What have we done so far?

The Steering Committee undertook many meetings leading up to the ICCRP Partnership & Engagement Event, in order to ensure that it was a successful and productive research Event. They have been discussing knowledge outputs related to several case studies and working groups. Each member brings valuable knowledge and experience to the committee where they share resources related to: involving young people in research, managing research staff, how to safely travel with young people, conducting virtual webinars and seminars, and creating meaningful resources for partner agencies.
