## **Project Description**

Proposals should describe the research/project in enough detail to allow informed assessment by the 2025 Indigenous SRC Distinction Fund Review Committee members. Since not all Committee members will have an intimate knowledge of the subject matter of all proposals, the proposal must avoid jargon and highly technical content.

The project description must include:

**Objectives** - The specific nature and objectives of the SRC project to be funded. As preference will be given to a project which has Indigenous community or research partnership(s) and/or addresses issues of significance to Indigenous peoples in an urban context and/or is working with Indigenous undergraduate and/or graduate student(s), please ensure that the project description addresses these preferences, if applicable.

**Context** - A brief literature review to situate the proposed project and, as appropriate, its theoretical approach. The context should also include the project's relevance, potential impacts and/or contributions to the respective field of study.

**Methods** - The methods to be employed, as well as analysis strategies and data sovereignty considerations, as appropriate.

**Timeline** - The time period within which the work will be undertaken.

**Optional** - Visual items such as timelines and graphs and imagery may be uploaded to your GAF separately as an Appendix (maximum 2 pages).

[Maximum 1500 words.]

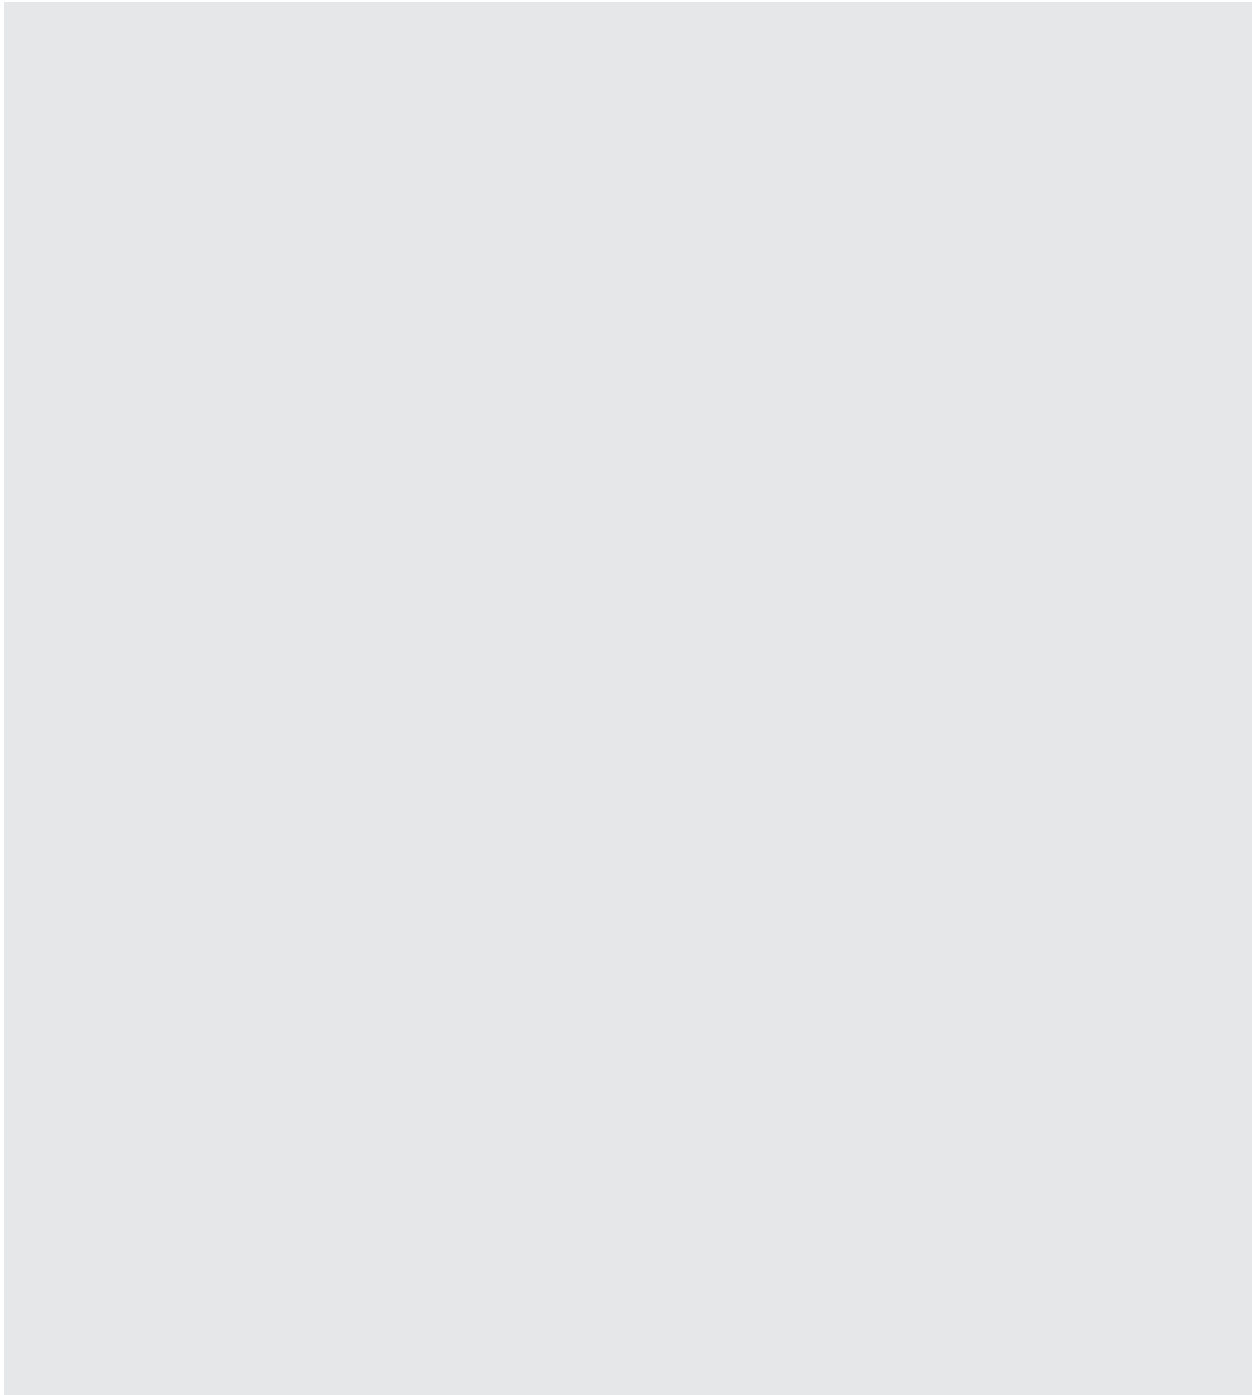

### **Knowledge Mobilization and Anticipated Outcomes**

There should be a clear indication of the expected outcome(s) of the proposed SRC project (e.g., publications, presentations, preliminary stage of a large project, community engagement initiatives/outreach, etc.), including any relevant student/HQP training. As appropriate, proposals should indicate how the SRC project will prepare the applicant for future externally funded opportunities.

[Maximum 500 words.]
