## Project Description

Proposals should describe the research/project in enough detail to allow informed assessment by the 2025 SSHRC Explore Review Committee members. Since not all Committee members will have an intimate knowledge of the subject matter of all proposals, the proposal must avoid jargon and highly technical content.

The project description must include:

**Objectives** - The specific nature and objectives of the SRC project to be funded. As preference will be given to a project which has an Indigenous community or research partnership(s) and/or addresses issues of significance to Indigenous peoples in an urban context and/or is working with Indigenous undergraduate and/or graduate student(s), please ensure that the project description addresses these preferences, if applicable.

**Context** - A brief literature review to situate the proposed project and, as appropriate, its theoretical approach. The context should also include the project's relevance, potential impacts and/or contributions to the respective field of study.

**Methods** - The methods to be employed, as well as analysis strategies and data sovereignty considerations, as appropriate.

**Timeline** - The time period within which the work will be undertaken.

**Optional** - Visual items such as timelines and graphs and imagery may be uploaded to your GAF separately as an Appendix (max 2 pages).

## **Knowledge Mobilization and Anticipated Outcomes**

There should be a clear indication of the expected outcome(s) of the proposed SRC project (e.g., publications, presentations, preliminary stage of a large project, community engagement initiatives/ outreach, etc.), including any relevant student/HQP training. As appropriate, proposals should indicate how the SRC project will prepare the applicant for future externally funded opportunities.

## List of References

**Budget**

An itemized budget explaining the relationship of the funds requested to the proposed SRC activity.

**Note on eligible expenses:** Funds can be used only for research-related costs that are acceptable under SSHRC guidelines and must conform to the university’s guidelines regarding pay and benefit rates and allowable expenses. Please refer to the Financial Services website for guidance.
