	and Regional Planning				
	Total	75.3%	80.4%	93.2%	1.7%

1. "---" denotes not applicable. To ensure respondent's confidentiality, cell counts less than or equal to 5 are not shown.
2. Sport Media (2014) and Language and Intercultural Relations (2016) are not included in the graduation rates because these programs began after Fall 2013.
3. The graduation rates shown understate the actual graduation rates because they do not count students who transferred to another university and then obtained a degree from that institution. The graduation rates in the table indicate the percentage of newly admitted students in first-year level on a full-time load in Fall 2013 who subsequently received a degree between 2014 and 2020 in any program area.
4. The employment rates in the table indicate the percentage of Class of 2020 degree graduates who were employed six months and two years after graduation.
5. OSAP default rates reflect the 2020 repayment status of students who were issued either a Canada Student Loan and/or an Ontario Student Loan through the Ontario Student Assistance Program in the 2018-2019 academic year and did not a loan in 2019-2020 and who were in default of their repayment obligations in July 2021. Typically, these students would have exited studies at the end of the 2018-2019 academic year. Includes undergraduate and graduate students. A blank cell denotes data not available or not reported.
