*Note: Headcount enrolment counts the number of students registered on November 1st while full-time equivalent enrolment takes into account each student's course load as a proportion of the applicable full course load. For example, a student taking 50% of a full course load counts as 0.5 in the full-time equivalent column and 1 in the headcount column. Full-time equivalent enrolment is measured across the three terms in the academic year: Spring/Summer, Fall, and Winter.*
